INTERNATIONAL JOURNAL OF IMPACT ENGINEERING

Editor-in-Chief: Professor Norman Jones
Department of Mechanical Engineering, University of Liverpool, P.O. Box 147,
Liverpool L69 3BX, U.K.

Associate Editor: Professor S. R. Reid
Applied Mechanics Division, Department of Mechanical Engineering, UMIST,
Manchester M60 1QD, U.K.

Founder Editor-in-Chief (1983–1987): Professor W. Johnson
Ridge Hall, Chapel-en-le-Frith, via Stockport SK12 6UD, U.K.

EDITORIAL ADVISORY BOARD

C. E. Anderson
Southwest Research Institute
San Antonio, TX 78284, U.S.A.

Y. L. Bai
Institute of Mechanics, Academia Sinica
Peking, People's Republic of China

S. R. Bodner
Faculty of Mechanical Engineering
Technion-Israel Institute of Technology
Haifa, Israel

A. A. Deribas
U.S.S.R. Academy of Sciences
Novosibirsk 90, Russia

W. Goldsmith
College of Engineering
Mechanical Engineering
University of California
Berkeley, CA 94720, U.S.A.

N. K. Gupta
Department of Applied Mechanics
Indian Institute of Technology
Delhi, Hauz Khas
New Delhi-110029, India

K. Kawata
Science University of Tokyo
Faculty of Science and Technology
Department of Mechanical
Engineering, 2641 Yamazaki
Noda 278, Japan

O. Mahrenholtz
Technische Universität
Hamburg-Harburg
Eisendorfer Strasse 38
Technikan D-2100
Hamburg, Germany

J. B. Martin
Department of Civil Engineering
University of Cape Town
Private Bag, Rondebosch
Cape Town, South Africa

P. Perzyna
Polish Academy of Sciences
Institute of Fundamental Technological
Research
Swietokrzyska 21
00-049 Warsaw, Poland

W. J. Stronge
University Engineering Department
University of Cambridge
Trumpington Street
Cambridge CB2 1PZ, U.K.

Paul S. Symonds
Division of Engineering
Brown University
Providence
RI 02912, U.S.A.

S. Tanimura
Department of Mechanical Engineering
College of Engineering
University of Osaka Prefecture
1-1 Gakuen-cho, Sakai City
Osaka 593, Japan

T. Wierzbicki
Department of Ocean Engineering
Massachusetts Institute of Technology
Cambridge
MA 02139, U.S.A.

R. L. Woodward
Department of Defence
Materials Research Laboratories
Ascot Vale
Victoria 3032, Australia

J. A. Zukas
Computational Mechanics Consultants Inc.
8600 LaSalle Road
Suite 614, Oxford Building
Towson MD 21286, U.S.A.

Production Editor: Victoria McNeill

Publishing, Subscription and Advertising Offices:
Headington Hill Hall, Oxford OX3 0BW, U.K. (*Phone* Oxford 794141, *telex* 83177)

Annual Institutional Subscription Rate (1993): £340.00 (U.S. $646.00). Personal subscription rate for those whose library subscribes at the regular rate is available on request. Sterling price is definitive. U.S. dollar price is quoted for convenience only, and is subject to exchange rate fluctuation. Prices include postage and insurance and are subject to change without notice. Subscription enquiries from customers in North America should be sent to: Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A., and for the remainder of the world to: Pergamon Press Ltd, Headington Hill Hall, Oxford OX3 0BW, U.K.

Application to mail at second class postage rate is pending at RAHWAY NJ. Postmaster send address corrections to *International Journal of Impact Engineering,* c/o Pergamon Press Inc., 660 White Plains Road, Tarrytown, NY 10591-5153, U.S.A.

Subscription rates for Japan include despatch by air and prices are available on application.

Back Issues

Back issues of all previously published volumes are available direct from Pergamon Press offices.

Whilst every effort is made by the publishers and editorial board to see that no inaccurate or misleading data, opinion or statement appear in this journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements herein are the sole responsibility of the contributor or advertiser concerned. Accordingly, the publishers, the editorial board and editors and their respective employees, officers and agents accept no responsibility or liability whatsoever for the consequences of any such inaccurate or misleading data, opinion or statement.

Published in two volumes: Volume 13 in February, May, August and November and Volume 14 in May

Contents

Number 1

S. J. Hanchak, M. J. Forrestal, E. R. Young and J. Q. Ehrgott	1	Perforation of concrete slabs with 48 MPa (7 ksi) and 140 MPa (20 ksi) unconfined compressive strengths
Shen Letian, Zhao Shida, Bai Yilong and Luo Limin	9	Experimental study on the criteria and mechanism of spallation in an aluminium alloy
T. Wierzbicki and M. S. Hoo Fatt	21	Impact response of a string-on-plastic foundation
D. Shu, W. J. Stronge and T. X. Yu	37	Oblique impact at the tip of a cantilever
D. A. Rabern	49	Axial and lateral impulsive loading of kinetic energy projectiles during launch—Part I. Experimental investigations
D. A. Rabern	65	Axial and lateral impulsive loading of kinetic energy projectiles during launch—Part II. Numerical simulations
K. Osakada, T. Okada and Y. Miyagawa	89	Rigid-plastic finite element method for impact and high speed deformation problems
W. Q. Shen and N. Jones	101	A failure criterion for beams under impulsive loading
W. Johnson	123	Richard Jack, minor mid-18th century mathematician: writings and background
Announcements	141	

Number 2

J. D. Cinnamon, S. E. Jones, J. W. House and L. L. Wilson	145	A one-dimensional analysis of rod penetration
C. E. Anderson, Jr and B. L. Morris	167	The ballistic performance of confined Al_2O_3 ceramic tiles
P. Robinson and G. A. O. Davies	189	Impactor mass and specimen geometry effects in low velocity impact of laminated composites

R. C. Batra and R. Jayachandran	209	Effect of constitutive models on steady state axisymmetric deformations of thermoelastic-viscoplastic targets
C. K. Youngdahl	227	Optimum approximate modes of strain-hardening beams
W. Goldsmith and J. L. Sackman	241	An experimental study of energy absorption in impact on sandwich plates
T. W. Bjerke, J. A. Zukas and K. D. Kimsey	263	Penetration performance of disk shaped penetrators
T. W. Bjerke, G. F. Silsby, D. R. Scheffler and R. M. Mudd	281	Yawed long-rod armor penetration
W. Johnson	293	Benjamin Robins (18th century founder of scientific ballistics): some European dimensions and past and future perceptions
D. Shu and J. G. Hetherington	325	Discussion/reply
Errata	329	
Announcements	331	

Number 3

Obituary	i	H. Kolsky
N. K. Gupta and V. Madhu	333	Normal and oblique impact of a kinetic energy projectile on mild steel plates
P. D. Smith, G. C. Mays, T. A. Rose, K. G. Teo and B. J. Roberts	345	Small scale models of complex geometry for blast overpressure assessment
J. C. Briggs and M.-K. Tse	361	Impact force identification using extracted modal parameters and pattern matching
S. N. Dikshit and G. Sundararajan	373	The penetration of thick steel plates by ogive shaped projectiles—experiment and analysis
J. G. Hetherington	409	The optimization of two component composite armours

H. Mcl. Clark and L. C. Burmeister 415 The influence of the squeeze film on particle impact velocities in erosion

M. J. Forrestal and V. K. Luk 427 Penetration into soil targets

D. A. Rabern 445 Numerical simulations of gun-launched kinetic energy projectiles subjected to asymmetric projectile base pressure

W. Johnson and S. Chandrasekar 459 Volcanic bombs—their form and physical structure: comparison with cast iron cannon balls

Announcements 469

Number 4

W. Yuan, W. Goldsmith, J. Radin and Z. Tauber 475 Response of simulated propellant and explosives to projectile impact—I. Material behavior and penetration studies

W. Yuan and W. Goldsmith 499 Response of simulated propellant and explosives to projectile impact—II. Fragmentation

W. Yuan and W. Goldsmith 533 Response of simulated propellant and explosives to projectile impact—III. Experimental and numerical results of warhead penetration and fragmentation

K. Kormi and D. A. Duddell 559 2-D axisymmetric and 3-D analysis of the impact of a flat ended cylindrical projectile with a thick plate itself supported on an elastic foundation

Y. C. Angel and J. P. Whitney 573 Ballistic limit for shielded plates subjected to hypervelocity impact

V. P. W. Shim, K. Y. Yap and W. J. Stronge 585 Effects of nonhomogeneity, cell damage and strain-rate on impact crushing of a strain-softening cellular chain

T. X. Yu and F. L. Chen 603 The large deflection dynamic plastic response of rectangular plates

M. Langseth and P. K. Larsen 617 The behaviour of square steel plates subjected to a circular blunt ended load

R. Cortés, C. Navarro, M. A. Martínez, J. Rodríguez and V. Sánchez-Gálvez 639 Numerical modelling of normal impact on ceramic composite armours

Announcement 653

INTERNATIONAL JOURNAL OF SOLIDS AND STRUCTURES

Editor-in-Chief: **CHARLES STEELE,** *Division of Applied Mechanics, Stanford University, Stanford, CA 94305, USA*
Consulting Editor and Editor-in-Chief 1965-1985: **GEORGE HERRMANN,** *Division of Applied Mechanics, Stanford University, Stanford, CA 94305, USA*

The *International Journal of Solids and Structures* has as its objective the publication and dissemination of original research in mechanics of solids and structures as a field of applied science and engineering. It fosters the exchange of ideas among workers in different parts of the world and also among workers who emphasize different aspects of the foundations and applications of the field.
The field of mechanics of solids and structures is experiencing considerable growth as a result of recent technological advances. The journal, by providing an international medium of communication, is encouraging this growth by encompassing all aspects of the field from the more classical problems of structural analysis to mechanics of solids continually interacting with other media, and including fracture, flow, wave propagation, heat transfer, thermal effects in solids, optimum design methods, model analysis, structural topology and numerical techniques. Interest extends to both inorganic and organic solids and structures.

A Selection of Papers
S. SHI, E. H. JORDAN & K. P. WALKER (USA), Self-consistent constitutive modeling and testing of poly-crystalline Hastelloy-X.
T. YE, Z. SUO & A. G. EVANS (USA), Thin film cracking and the roles of substrate and interface.
M. T. HANSON (USA), Interaction between an infinitesimal glide dislocation loop coplanar with a penny-shaped crack.
P. R. HEYLIGER & A. JILANI (USA), The free vibrations of inhomogeneous elastic cylinders and spheres.
Y. TOMITA (Japan) & **Y. KIM** (Korea), Bifurcation behaviour of bilayered tubes subjected to uniform shrinkage under plane strain condition.
K. IKEDA, I. ARIO & K. TORII (Japan), Block-diagonalization analysis of symmetric plates.
J. PAN & C. F. SHIH (USA), Elastic-plastic analysis of combined mode I, II and III crack-tip fields under small-scale yielding conditions.
